

## Utilities Command List

spoken command	action	notes
<b>DB</b>	calls the dictation box	if you have the SP dictation box, make sure you rename the original DB command to something else
<b>Glide &lt;direction&gt; &lt;speed&gt;</b>	For example, <b>glide down slow</b>	Use the configuration manager (group 2, configure glide speed) to configure the three speeds. The higher the number the slower the scroll speed.
<b>&lt;1-100&gt; down &lt;1-100&gt;</b>	<b>33 down 75</b> places the mouse cursor 33% of the way to the right and 75% of the way down from the top left corner.	The <b>grid</b> program must be installed. This command works with either the graphical grid displayed or not.
<b>Grid &lt;option&gt;</b>	The options are: <b>Close</b> <b>Help</b> <b>Show</b> <b>Stop</b>	<b>close</b> and <b>stop</b> do the same thing, <b>show</b> opens up the grid display.
<b>My Plates</b>	Displays the <b>plates</b> application	
<b>Plates &lt;dictation&gt;</b>	Goes directly to the dictated category, if you have multiple categories defined	
<b>Speech Commander</b>		Opens the program and places the icon in the system tray. Double clicking on the icon or doing a right-click on it and choosing <b>show</b> will display the window to you.
<b>Mike Level</b>		Opens the Mike level program, places the icon in the system tray. Double clicking on the icon will cause the icon to be opened in the task

		manager, where you can open it up as normal. It's quirky, but for now it works.
Calculator		
Focus <dictation>	focus group	See the Focus help file
Kill <dictation>	focus group	
Make Height <1-200>	focus group	
Make Wide <1-200>	focus group	Width is a challenge to say
Monitor <1-6 >	focus group	
My Center	focus group	
Shrink	focus group	
Size <1-200>	focus group	
Slide <direction> <1-100>	focus group	
Swap Screen	focus group	
Switch	focus group	
Touch	focus group	
Command Assistant	focus group	Download separately from the focus command
Cache Speech	Manages speech productivity files	
Cache Utilities	Manage U4D files	Configuration files/folders in your AppsData folder
Configuration Manager		Manage various settings, these files are stored in your documents folder under U4D/U4D_data/<various program names>
Configure SP		For convenience, does the same thing as the configuration manager but for the old speech productivity folders/files.
